That works fine for me. Zaki are you okay with the date and time suggested?

The week of 2/6, I am available all days except Tuesday, 2/7. The week of 2/13, I am available all days except Tuesday 2/14. Mornings work better for me. I am okay with coming to your office to meet as well. Just let me know.

Devon, Thanks for your quick response. There are a number of property owners who have issues so I would like to schedule a meeting in a couple of weeks so I can give them notice and get them to the meeting. What days and times would you have available to meet in two weeks or so? It would also be very much appreciated if you and your colleagues could come to our offices for the meeting. Thanks in advance--Carol

Subject: Re: Setting a meeting

Good Morning Carol,

I am available Monday and Tuesday next week. Just let me know when you would like to meet to discuss your concerns. In the meantime is there a specific location where you need increased enforcement on the meters?

On Wed, Jan 25, 2017 at 5:33 PM, Seleta Reynolds <seleta.reynolds@lacity.org> wrote:

Hi Carol -

Nice to hear from you and happy new year to you as well!

I'm looping in Deputy Chief Devon Farfan and Principal Engineer Zaki Mustafa who are the right ones to meet and discuss the issues. I will be sure to get a briefing afterwards so that I can monitor follow up.

- Seleta

Hi Seleta,

Is it still appropriate to say Happy New Year as I feel like I've been here for a few months already? If so, Happy New Year!

I have been getting a steady stream of complaints from my property owners about a number of issues that relate to DOT's jurisdiction. As you may know, the Downtown Center BID represents the property owners in the 65 square blocks of central Downtown and they are largely large commercial owners.

I would greatly appreciate it if you or a senior member of your staff could set some time aside to meet with some of them to discuss the following issues:

- The balance between pedestrian and vehicular traffic at key intersections. Some key intersections do not move vehicular traffic as well as they might.

There are also specific concerns re: recent incidents of injury to pedestrians one of which resulted in a death.

- Enforcement of parking meters

- Other mobility issues including the bike/car balance.

Please let me know if we can get this on the calendar.

Best regards,

Carol
